

Control Union (CU) Certifications is an independent, internationally operating certification body. With its foundation in agriculture, CU Certifications has focused its efforts in developing services around the sustainability of the industry's supply chains in a wide range of markets. With 'boots on the ground' in more than 80 countries through own offices, we carry out audits and certification activities, thereby reducing costs and improving services.

PROFESSIONAL INSPECTION & CERTIFICATION WORLDWIDE

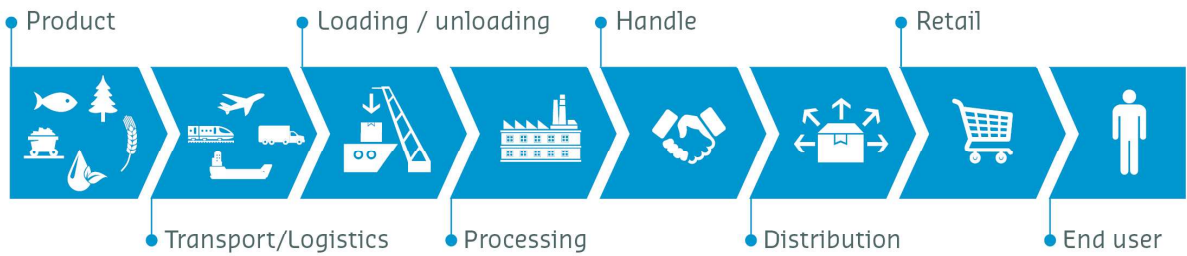

With its roots in the agricultural sector, Control Union Certifications can provide either tailor-made solutions or offer one of more than 200 available programs to provide you with the best options for sustainable sourcing.
